

Choice of Uniform Colors - Contrast

Main colors should be light vs dark or as much contrast as possible.

Avoid combinations like:

BLUE vs GREEN, BLUE vs BLACK, RED vs. ORANGE/PINK etc (if they are both dark or light) – not a good TV image.

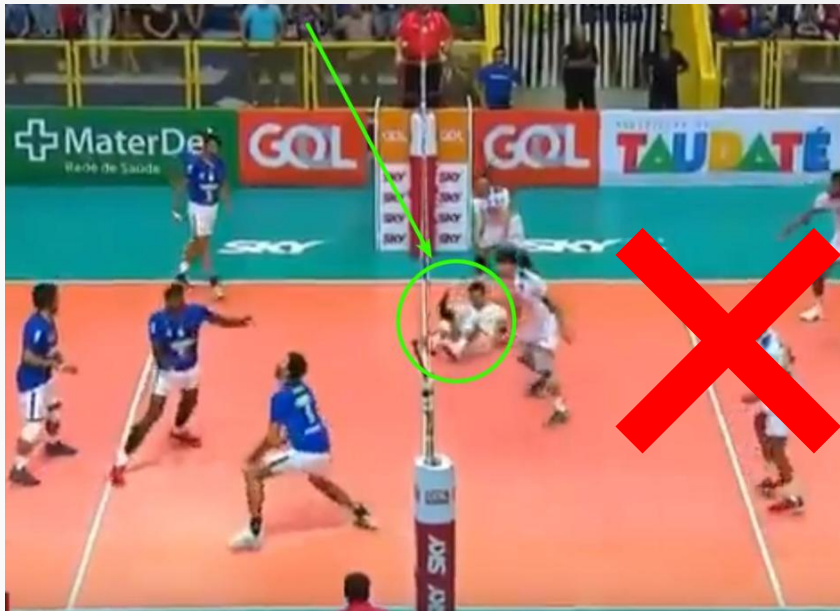

Choice of Uniform Colors - Liberos

Libero uniforms must be the **most** contrasting set to the main uniform and easily visible on court.

- Avoid combinations like main LIGHT BLUE and libero WHITE
- As much as possible, uniforms should not match the color of the opponent

One team can have 2 colors for their liberos

- Note the teams that have more than 3 colors, or libero-specific uniforms and ensure this is specified in the O-1 using "/" – i.e. BLACK/RED (amend O-2 if necessary).

Choice of Uniform Colors – Preference to Use 4 Different Colors

Use 4 different colors. If not possible – it is acceptable to have both team liberos' colors match.

3 colors, correctly used

4 colors

Choice of Uniform Colors – Team Preference and Laundry Considerations

Take note of laundry processing time and avoid having teams play with the same color two consecutive days

Unless

- you are certain uniforms will be ready OR
- the team has more than one piece per color.

Respect the order of teams' color preference whenever possible.

UNIFORM COLORS		
Team	Main:	Blue
	2nd:	White
	3rd:	Red
	Opt:	
Liberos	Main:	White
	2nd:	Red
	3rd:	Blue
