- 40.5.3 The FIVB International Referee courses may operate once per four-year period, or, as needed, to replace a group of referees who have either decided voluntarily, or have been forced through age, to end their career as an active referee.
- 40.5.4 International Referees who attend the FIVB International Referee course, must afterwards attend a competition organised under the control of FIVB and be assessed to continue to be used at this level. FIVB International Referee status is, therefore, only guaranteed, if the International Referee shows consistently good performance level, and has a sound working knowledge of rules, referee guidelines and of English.
- 40.5.5 Eligibility and Selection
- 40.5.5.1 The selection of FIVB International Referees maintain the highest quality. Only the best of the best within a continental framework should be selected. This will require the Continental Referees Commission Presidents to propose a maximum of five (5) International Referees based on their evaluations of their International Referees according to the ranking system. FIVB will also look to the ranking system and may propose additional/ alternative International Referees. Once agreed, the International Referees concerned will be invited to attend the course. FIVB will reserve the right to refuse access to the course for any referee who does not speak English at a very strong level. This is a primary requirement to operate in FIVB events. Continental Referee Commissions must take this into consideration when putting forward the names of International Referees to attend this course. The level of English will be tested well in advance by video conference by the President of the FIVB Rules of the Game and Refereeing Commission or the person assigned by him/her.
- 40.5.5.2 An additional mandatory requirement for selection of the participant is the physical condition of the International Referee as he or she should be in good physical shape to

withstand the stress of the position of refereeing an elite international competition.

- 40.5.5.3 While strong English language skills and good physical condition are essential, selection must also take account of the social aspect of refereeing an elite level sport. The referee nominated must be a “team player” capable of mixing socially with ease with the other members of the refereeing teams and the global volleyball community.
- 40.5.5.4 All participants will receive a certificate of attendance signed by the President of the Rules of the Game and Refereeing Commission and the FIVB President. Successful completion of the course (Very Good/Good) with the approval of the Board of Administration, will allow for nomination to FIVB events along with the existing referees who operate at this level, and replacing those who are retiring due to age or other factors. The classification awarded will be in the Category “C” in the first instance.
- 40.5.5.5 According to the FIVB ranking system. It is expected that the new FIVB International Referees so awarded will, with more FIVB experience, rise up through the grading system. However, every two years, their performance will be evaluated and, should their performance fall below that which is required for FIVB competitions (as determined by statistical analysis and supplementary comments), the FIVB International Referees concerned will no longer be nominated (although they may still operate at Continental level as International Referee again).

The regulations relating to advertising on team uniforms can be found in Section I, Chapter 6 of these Regulations.

Please refer to the Specific Competition Regulations of the competition to determine whether advertising on team equipment is allowed (**for the Olympic Games, no advertising is allowed; all other FIVB requirements for uniforms are applicable**).

If advertising is allowed there may be special considerations to be taken into account over and above the points below which will be defined in the Specific Competition Regulations.

A team may have up to three (3) sponsors during a given event. Team members must not display any advertising logo other than the name(s) of the one (1)/two (2)/three (3) sponsor(s) logo that has been registered by the National Federation and approved by the FIVB on all team equipment. A team must display the same advertising on team equipment.

The size of the advertising must not exceed 300 cm² in one block on the front of the jersey and 50 cm² on each jersey sleeve. In the case of a sleeveless jersey the advertising can either be placed on the shoulder or on the collar but limited to the max size 50 cm².

Option A: Major sponsor in the block on the front of the shirt and a minor sponsor in the two (2) blocks on the sleeves. Option B: Major sponsor in the block on the front of the shirt and in one (1) of the two (2) blocks on the sleeves. Minor sponsor only in one (1) of the two (2) blocks on the sleeves.

For options A and B, the advertising block on the front of the jersey may be either below the number or above, in the latter case with the placement of a longer, thinner advertising.

Option C: Two (2) sponsors with equal exposure, 150 cm² each in the block on the front of the shirt (which must remain as one square block) and each of them a 50 cm² block on the sleeves.

Apart from the advertising, the logo of the manufacturer of the homologated uniform must be displayed on the uniform jersey and shorts in accordance with specifications previously defined. ANNEX C

MATCH DESCRIPTION AND PRESS CONFERENCE GUIDELINES

C.1 As soon as possible after the match is over, the Press Writer must upload the Match Description to the FIVB website.

C.2 The Match Description must:

- have a simple news-style headline in the present tense;
- be two hundred (200) to three hundred (300) words in length;
- must have up to three (3) short lead paragraphs explaining who won and lost and what happened overall during the match, following an English-language “inverse pyramid” style of journalism where the most important information is summarized at the beginning of the story;
- be spell-checked (English U.K.) before being uploaded; and
- be written in U.K. style (e.g. Brazil win, Tunisia are, Serbia down, etc.).

C.3 Example from previous FIVB tournaments of how to write the beginning two to three paragraphs of a Match Description:

“Brazil crush Japan in straight sets

Tokyo, Japan, August 12, 2007 - World No. 2 Brazil extended their winning streak against sixth-ranked Japan to 19 games by beating the home team 3-0 in the FIVB World Grand Prix at Ariake Coliseum on Sunday.

Undefeated against Japan since November 2001, Brazil maintained their dominance with a performance of power and precision to win 25-15, 25-19, 25-13 in front of a 10,000 capacity crowd.

The victory improved Brazil's win-loss record to 6-0 in the Grand Prix qualifying round while dropping Japan to 3-3 with three games remaining in which to book a place in the six-team final round in China from August 22-26.”

C.4 Important Match Description procedures to follow:

a) Headline format

Use a short and simple headline explaining who won, using a verb in the present tense, e.g. Brazil crush ..., Guidara guides ..., Spain get off mark ...

b) Dateline format

Please note and follow the format for the dateline at the beginning of the Match Description: Tokyo, Japan, December 1, 2007 - (city, country, month-date, year, dash).

c) Essential information within the first three paragraphs:

- The name of the team that won the match (this has to be made clear in the first paragraph) and in how many sets (e.g. straight sets/3-0, four sets/3-1, five sets/3-2);
- The name of the team that lost the match;

- The complete final score (e.g. 25-16, 25-19, 25-18);
- The day the match took place (e.g. Saturday);
- The full title of the competition (e.g. the FIVB World Grand Prix);
- The win-loss record (for the winners at least) as a result of the match (e.g. The victory improved Brazil's win-loss record to 6-0), if applicable.

d) Extra information needed:

The Press Writer also should include as much of the following as possible, either following the opening paragraphs or in the opening paragraphs if considered newsworthy enough:

- Were there any great performances by any of the players? (Exceptional serving? Exceptional blocking? Clever setting, etc.?)
- Best Scorer?
- Most Valuable Player?
- Name of the arena (e.g. ... at Ariake Coliseum)?
- When did the winning team start to take control?
- Why did the winning team start to take control?
- Did the winning team come from behind?
- Were they always in the lead?
- Were there a lot of fans?
- What was the atmosphere like?
- Which team do the winners play next?
- Which team do the losers play next?
- Teams' world rankings?

e) Players' names

In the Match Description, as a general rule, players' names should be written in full on first reference and then written with the family name from the second reference onwards.

When a player uses their popular name/shirt name and is sufficiently well known (e.g. Brazilian players like Giba), then the popular name/shirt name can be used from first reference.

The other option is to include the full name on first reference with the popular name/shirt name in brackets and on second reference use the popular name/shirt name (e.g. Egypt's Hamdy Awad (Elsafi) scored 10 points. Elsafi played an excellent game.).

- C.5 As soon as possible after the official Press Conference is over, the Press Writer must upload comments onto the FIVB website. The Press Writer should strictly observe the following format for the text when doing so:

Example

(SIMPLE NEWS-STYLE HEADLINE)

Setter Takeshita brought team together, says Japan coach

(COMMENTS: Divided by team, using full names of coaches and players, no quote marks are needed)

Japan coach Shoichi Yanagimoto: "... [quote] ..." Japan

captain Yoshie Takeshita: "... [quote] ..." Japan player Saori

Kimura: "... [quote] ..."

Chinese Taipei coach Jeng Fang Fann: "... [quote] ..."

Chinese Taipei captain Kou Nai Han: "... [quote] ..."

Note:

Before uploading to the FIVB website, all Match Descriptions and Press Conference Reports text must be spell-checked.)
